Foreword

Welcome to the Easy Weddings 2023 Australian Wedding Industry Report. This is our 8th edition of the largest national wedding industry report, which gathered survey responses from almost 600 wedding businesses as well as 3,500+ engaged and recently married couples.

The data in this report provides insight into the planning behaviours of engaged millennial couples who will be getting married in 2023 and beyond, what they like about suppliers and what inspires them, as well as specific data for major industry categories.

As most of Australia's COVID-postponed weddings have now been rescheduled, most wedding planning has reverted to pre-pandemic times. Couples still prefer Saturday weddings, with wedding vendor availability becoming less competitive than we saw in 2021-22. Fewer weekday weddings are expected in 2023 and beyond than in 2021-22 — although the option is still attractive, particularly to couples seeking lower-budget options.

With the pressures of increasing supply-chain costs on vendors, coupled with inflation and cost-of-living pressures, it is unsurprising that budgeting is becoming a concern for this year's couples. The average wedding budget has gone up 8.5% this year, so sticking to a budget is what couples say is their #1 wedding stress.

The demographic of engaged couples has remained fairly unchanged, with the average planning cycle of 22 months being consistent with previous years. However, more couples are taking a joint approach to their wedding planning, rather than just one partner doing most of the planning.

With the majority of COVID setbacks behind us, I am excited about what looks to be another year of upward trajectory for the Australian wedding industry.

I'm pleased to share this latest view of the Australian wedding industry with you. I hope you can use the insights within to further grow your business and continue providing exceptional service to your couples.

Destination Weddings

★ 4.9 / 5

New Zealand continues to hold the top spot for an Aussie destination wedding. The UK, Fiji, Italy, and Greece all remain popular for 2023 weddings and beyond.

In years gone by, couples keen on a destination wedding overseas would jet to tropical Asian islands like Bali and Phuket. This year, however, those destinations have been bumped in favour of the USA, and in particular Hawaii. It seems since the pandemic, couples are keen to splurge extra for the island wedding experience.

General Insights

How Couples Are *Influenced* To Buy

In order of importance, couples rank these influences on their decision to purchase or hire from a wedding vendor:

1. They are up-front with their pricing

2. Their photos/posts fit with the wedding I want

3. Previous customers left positive reviews
4. I felt a personal connection with the supplier

5. They have a flexible refund policy for unforeseen circumstances

6. The supplier is popular on social media

For most couples, a wedding is a one-time event they have no prior experience planning. It's also one of the biggest ticket items they've ever purchased. It's unsurprising then, that **clear and upfront pricing** was the **number one** factor couples want from potential wedding vendors.

Narrowly in second place was **the supplier's photos fitting the wedding they want**. Pictures tell a thousand words; so carefully considering which **images** you use to represent your business on your website and Easy Weddings storefront is crucial. Couples are looking for inspiration to help build their wedding day vision board; that's why it's important to include photos that not only appeal to your target market, but also demonstrate the kind of weddings you want to attract.

Where do couples first discover their wedding vendors?

After finding suppliers on Easy Weddings, what do couples do next?

It is important to note that **73%** of couples interested in a supplier on Easy Weddings will go off the Easy Weddings platform to research further before enquiring. Usually, these enquiries will take place on the supplier's own website or via email, making attribution to Easy Weddings difficult.

When To Ask for Reviews

When asking for reviews, it can be helpful to send an initial request around **three days after the wedding** while the couple is still on a high. **A month after the wedding date** is a good timeframe for a follow-up request if they haven't yet reviewed you, as most couples are honeymooning for up to two weeks and will have returned by then. Asking once will generally get a response from **1 in 5** couples, but asking twice will up your response rate to **1 in 3**.

Customer Service

★ 4.9 / 5

The average review score for suppliers on Easy weddings is **4.9 stars** out of five, remaining unchanged from last year. Couples seem to love vendors on Easy Weddings! Suppliers continue to impress clients with how quickly they respond to enquiries. Just over half of couples (**54%**) expect a response to their enquiries within **48 hours**, yet, most suppliers (**85%**) respond to an enquiry within the same day or hour - and in some instances, within minutes!

The average wedding business spends **31 hours** preparing for weddings in addition to the day. That's a **10-hour** jump from last year's result, so including your preparation hours in quotes and invoices will show your clients how much value you are providing.

How Suppliers Are *Exceeding* Couples' Expectations of Enquiry Response Times

Suppliers are doing an incredible job of exceeding couples' expectations of response times! Keep it up!

Pro Tip: Respond to all enquiries as soon as possible to ensure you are top of mind, however also ensure the information in your response answers their main questions. We suggest having draft response templates saved on your desktop or phone notes to make this simple. To get real time notifications of enquiries, download the WedCRM app from the App Store or Google Play and set up notifications on your phone.

As we have seen in recent years, modern millennial couples are not too fond of telephone calls! We recommend suppliers respond to enquiries in the same way that the couple made contact with them, and ask couples from that first interaction how they would prefer to communicate with you moving forward. Have several email templates set up and ready to go once an enquiry comes in - which you can do in the Easy Weddings WedCRM.
